

# **MPJ Healthcare Ltd. T/A Infusion Healthcare - Net Zero Emissions Commitment**

**Date:** 19/02/2025

At Infusion Healthcare, we are committed to playing a pivotal role in the fight against climate change by reducing our environmental footprint. As part of our sustainability strategy, we are pledging to achieve **net zero greenhouse gas emissions** across all our operations by **2030**

## **Our Commitment**

Infusion Healthcare will reduce carbon emissions through targeted actions, leveraging innovation, and prioritizing sustainability in every aspect of our business. We are committed to creating a positive environmental impact while ensuring long-term value for our stakeholders.

## **Key Actions to Achieve Net Zero**

- 1. Energy Efficiency:**  
We will reduce energy consumption through technology upgrades, improved processes, and a commitment to reducing waste in energy usage across all operations.
- 2. Renewable Energy Transition:**  
We will accelerate the shift to renewable energy sources, such as wind, solar, and hydropower, ensuring that 100% of our total energy consumption comes from renewable sources by 2050
- 3. Carbon Offsetting:**  
In addition to reducing direct emissions, we will invest in high-quality carbon offset programs to neutralize unavoidable emissions.
- 4. Sustainable Products and Services:**  
We will continue to innovate and offer products and services that have minimal environmental impact, ensuring that sustainability is at the core of our offerings.
- 5. Supply Chain Engagement:**  
We will work closely with our suppliers and partners to reduce the carbon footprint across our supply chain, fostering collaboration to meet the common goal of net zero emissions.
- 6. Employee Engagement and Education:**  
We are committed to fostering a culture of sustainability by engaging our employees in carbon reduction initiatives and providing the resources needed to integrate sustainability into their daily roles.
- 7. Fleet cars:** Our fleet cars are fully electric vehicles

## **Monitoring and Reporting**

We will regularly assess and report on our progress toward achieving net zero emissions through annual sustainability reports. These reports will include transparency on our emissions reduction strategies, challenges, and achievements. We will also seek third-party

verification to ensure our progress is in line with global standards such as the **Science Based Targets Initiative (SBTi)** and the **Paris Agreement**.

### **Why Net Zero Matters**

The transition to a low-carbon economy is not just a regulatory or corporate responsibility; it is critical for the health of our planet and future generations. By achieving net zero emissions, Infusion Healthcare will reduce its contribution to global warming, strengthen resilience to climate-related risks, and help create a sustainable future for all.

### **Join Us in Our Journey**

At Infusion Healthcare, we are excited about the future and our role in building a more sustainable world. We invite our customers, partners, and stakeholders to join us in this important journey towards a net zero future.
